Statement of Issue, Funding Source, Recommended Action, Alternative Action(s), Analysis, Environmental Status, Attachment(s)

**Statement of Issue:** Adoption of a resolution approving the submittal of up to eleven street improvement projects is required for applications to Orange County Transportation Authority (OCTA) for funding under the Combined Transportation Funding Programs (CTFP).

**Funding Source:** No funding source is required for this action. If grants are awarded, matching funds would be required. Measure M, Gas Tax, and Traffic Impact Fees are appropriate matching fund sources. Additional funding participation is being sought from the State of California for project applications on shared facilities.

**Recommended Action:** Adopt Resolution No. *2005-6* approving the submittal of eleven improvement projects to the Orange County Transportation Authority for street rehabilitation funding under the Combined Transportation Funding Program.

**Alternative Action(s):** Deny approval of some or all of the projects listed in the resolution and forego eligibility to receive matching funds through the CTFP. This action would result in the loss of potential funding for arterial highway rehabilitation and street widening projects.

**Analysis:** On November 8, 2004, the Orange County Transportation Authority (OCTA) announced a call for projects for the Combined Transportation Funding Programs (CTFP). As a condition of eligibility, the City is required to adopt a resolution approving the submittal of applications for transportation improvement projects for CTFP funding. In general, the resolution declares the City's desire to implement the submitted projects, as well as an affirmation to follow CTFP procedures, should funding be approved and allocated. The following eleven ((11) Attachment 1) will be considered as candidates subject to final competitive point estimates.
